ACCESSION NO. 74-169
REFERENCE NO. 118. 9/23/14 (x)

- A. Intake on North Saskatchewan.
- B. Diversion from Clearwater into Red Deer Drainage via Stauffer Creek.
- C. Suggested Dam Sites on Red Deer River. Two possible Sites.
- D. Point of probable Diversion on the route C.-E. into Sullivan Lake via Parby Creek (L.) and so on.
- E. Discharge into Battle River.
- F. Diversion from Battle River.
- G. Buffalo Lake.
- H. I. K. and H. K. Two possible Routes.
- G. H. I. K - K¹ All North, East and South of it is largely Irrigable Land.
From G. to H. the Land is very broken by Ravines.
- D. L. M. Route to Sullivan Lake.
- D. L. M. N. O. All North, East and South is largely Irrigable Land
and from Stettler, East, the Land between the two
Routes would lend itself to a very large extent to
economical and therefore profitable Irrigation
- K. to P. Probable route of Canal to Rosetown and so on to
Saskatoon and North of it, and would have an
immense area of good Irrigable land thereunder.
- Q. Possible Reservoir Site at Sounding Lake.
- R. Probable Reservoir Site at Tramping Lake.
- S. T. R. U. Possible Route to vicinity of Rosetown and which
would have a very large area of fine Land
lying below the Canal
- V. Large area of cheaply irrigable land of good quality with
strong Clay Soil which would warrant a very large
expenditure to place water thereon. It can be done;
simply a matter of cost.
- W. An area of possibly 150,000 Acres of choice easy rolling
Land which can have water placed thereon at
probably a low cost.

SKETCH

Illustrating the possibility of diverting water from the N. Saskatchewan River for Stock purposes on a large tract of land, bounded on the North by the North Saskatchewan River & Battle River, on the East by the South Saskatchewan & on the South by the South Saskatchewan & Red Deer Rivers; situated in the Provinces of Alberta & Saskatchewan. A considerable portion of said tract could also be advantageously irrigated

DOMINION LANDS ACT, 1908

All unoccupied surveyed agricultural lands, whether odd-numbered or even-numbered sections, that are not reserved or that have not been disposed of are open to entry for Homestead.

YOUR RESPONSIBILITY

Every year Canada loses millions of dollars by forest fires, for which you have to pay in increased taxes and higher prices.

A FEW GOOD RULES TO HELP

1. Do not throw away burning matches or tobacco.
2. Do not make a camp fire in leaves, rotten wood or against logs where it may spread, or you cannot be sure it is out.
3. Never leave a fire until it is OUT.
4. Do not burn slashings in the dry season without a permit and without taking care to keep the fire from getting away.
5. Put out any fire you find if you can. If you cannot, notify a fire warden, some other public officer, or the land owner.

*Note. If Sullivan Lake be made a Reservoir then all North, East and South of the Yellow Margin can probably be irrigated.
If Buffalo Lake be made a Reservoir Supply for this District then what lies North, East and South of the Green Margin can probably be irrigated except what is colored Brown*
